This Online Privacy and Cookie Notice ("Online Privacy Notice") describes Premier America Credit Union's online and mobile privacy practices and applies to websites, mobile applications that run on smartphones, tablets, and other devices ("Apps"), and additional services that we offer which link to this Online Privacy Notice.

By using this website or our Apps, you agree to the terms and conditions of this Online Privacy Notice and consent to our online data collection activities as described in this Online Privacy Notice.

The terms "personal information" or "personally identifiable information" used in this Online Privacy Notice refers to information such as your name, mailing address, email address, telephone number, Social Security number, or other information that identifies you. This information may be collected when you voluntarily provide it to us on our website or in our App.

INFORMATION WE COLLECT ONLINE – AND HOW WE COLLECT IT

You may visit our website to find out about products and services and check rates, without giving us any personal information. We may use software tools and/or "cookies" to track and gather information about your browsing activities in order to analyze usage, target areas for improvement, and create marketing programs to benefit our members or potential members that visit our site. Tracking includes the date and time of visits, pages viewed, time spent on our site, browser types, IP address, and the site visited just before and just after our site. We may also track browsing activities of members who have accounts with Premier America Credit Union and who use Online Banking services. As part of our security procedures for members using our Online Banking to conduct account inquiries and transactions, we require personally

identifiable information such as a login identification (login ID) and password. We may use a cookie to authenticate your request.

1) Use of Cookies and Similar Tracking Technologies

The use of cookies and similar tracking technologies (including pixels or clear GIFs, tags, and web beacons) is a common internet practice. Cookies are small text files containing small amounts of information which are downloaded to your computer, smartphone, tablet or other mobile device when you visit a website. Cookies are useful in a number of ways, including allowing a site or mobile app you use to recognize your device, save your settings on a site or mobile app, facilitate navigation, display information more effectively and to personalize the user's experience. Cookies are also used to gather statistical information about how sites and mobile apps are used in order to continually improve design and functionality and assist with resolving questions regarding the sites and mobile apps.

a. Attributes of Cookies

Cookies set by us are called **first-party cookies**. We may also have **third-party cookies**, which are cookies from a domain different than the domain of the website you are visiting, for our advertising and marketing efforts. There can be first-party and/or third-party cookies within any of the below Categories of Cookies.

Cookies have a duration period. Cookies that expire at the end of a browser session are called "session" cookies. Cookies that are stored longer are called "persistent" cookies. There can be session and/or persistent cookies within any of the below Categories of Cookies. Persistent cookies are stored on your system and can be accessed again for multiple visits. Persistent cookies usually have an expiration date and will be automatically deleted from your system at that time.

Our OB does not pass personally identifiable information through cookies. OB also uses a temporary session cookie, a non-persistent cookie, or a pre-expired cookie. This cookie is used as part of our stringent online security measures to make sure that each page is not cached or saved on your computer (each page must be retrieved from the web server). This cookie is deleted when a user logs or times out of OB, or if the browser window is closed, and ensures that another user on the same computer cannot access the previous user's session or information. If you use Enhanced Login Security, then OB may place a secure persistent cookie on your computer. This secure cookie is unique, and when used in combination with your login information, creates a unique way to identify you to our system. For every login attempt after you add extra security to a computer, this secure cookie is validated along with the login identification you normally enter. This secure cookie is only used to validate your identity and does not contain any personal information. Mobile online banking services available through the App and Bill Pay services may use persistent cookies to speedup identification of device type. This cookie does not contain any personal information.

b. Categories of Cookies

Below is a list of the types of cookies that may be used in our sites and mobile apps. We classify cookies into the following categories:

Necessary. These cookies are necessary for the sites and mobile apps to function and cannot be switched off in our systems. Without these cookies, the sites and mobile apps will not work properly. Examples include setting your privacy preferences, setting your language preferences or logging in in a secured area requiring authentication. Strictly necessary cookies may also detect transmission errors or data loss or distribute network traffic across different servers to ensure accessibility. You can set your browser to block or alert you about these cookies, but that will cause some parts of the site to not work.

Preferences. Preference cookies enable the sites and mobile apps to remember information that changes the way that the sites and mobile apps behave or look, like the preferred language or the region that you are in.

Statistics. Statistic cookies enable us to measure and improve the performance of our sites and mobile apps. These cookies collect information about how visitors use a site and mobile app, for instance, which pages visitors go to most often and if they get error messages. These cookies can also be used to make collective inferences based on choices and browsing behavior for marketing research.

We use Google Analytics to measure and improve the performance of our site.

To view an overview of the privacy of your Google Analytics cookies please go here: <https://support.google.com/analytics/answer/6004245>.

You may install a Google Analytics opt-out browser add-on by going here: <https://tools.google.com/dlpage/gaoptout?hl=en-GB>.

Marketing. Marketing cookies are used to deliver advertisements that may be relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of an advertising campaign. They are usually placed through our sites and mobile apps by our advertising partners and remember that you have visited a site or mobile app. This information may be shared with other organizations such as advertisers.

Unclassified. Unclassified cookies are cookies that we are in the process of classifying, together with the providers of individual cookies.

c. How to Control and Delete Cookies

1. Using Your Browser

Many of the cookies used on our website can be enabled or disabled through our consent tool or by disabling the cookies through your browser. To disable cookies through your browser, follow the instructions usually located within the "Help," "Tools" or "Edit" menus in your browser. Please note that disabling a cookie or category of cookies does not delete the cookie from your browser unless manually completed through your browser function.

Some browsers may have enabled "do not track" ("DNT") signals. DNT is a signal, sent from an individual's browser to a website via standard web protocols, requesting that a website refrain from tracking an individual's online activities. The World Wide Web Consortium ("W3C") created a working group to standardize this tool. Despite a decade of effort, the DNT project ended when the W3C disbanded the working group in 2019 due to insufficient support and adoption. Because DNT signals and appropriate responses are undefined, our website does not respond to browser DNT signals.

A growing number of browsers are adopting Global Privacy Control ("GPC"), which was created in 2020 and is similar to DNT. The GPC is a technical specification for transmitting universal opt-out signal that communicates a consumer's choice to opt-out of the sale or sharing of their personal information for behavioral advertising. Where required to do so under applicable law, our website will honor GPC signals.

2. Using Your Mobile Device

Some mobile devices come with a non-permanent advertising identifier or ID which gives companies the ability to serve targeted ads to a specific mobile device. In many cases, you can turn off mobile device ad tracking or you can reset the advertising identifier at any time within your mobile device privacy settings. You may also choose to turn off location tracking on your mobile device. By turning off ad tracking or location tracking on your mobile device, you may still see the same number of ads as before, but they may be less relevant because they will not be based on your interests.

3. Third Party Website Cookies That We Cannot Control

When using our website, you may be directed to other websites for such activities as surveys, completing job applications, and to view content hosted on those sites such as an embedded video or news article. These websites may use their own cookies. We do not have control over the placement of cookies by other websites you visit, even if you are directed to them from our website.

2. Geolocation

When allowed by you, our mobile App collects your location data to provide branches and ATMs near you. Location access can be allowed once, only while using the App, or you can choose to not allow location data to be collected.

3. IP Addresses

If you log on to OB, you pass through a "firewall" used for security purposes and the Internet Protocol (IP) address associated with the computer you are using may be identified. The IP address does not identify you personally. In certain instances, it may also obtain other information about your computer to better identify you as an online user. This information may be retained in case it is needed for security or protection of member information.

4. Social Media

We may collect information, such as your likes, interests, feedback, and preferences when you interact with our official pages on social media websites such as Facebook, Twitter, LinkedIn, YouTube, and Instagram or from our social media partners (but only if you choose to share with them and they, in turn, share that information with us). Please refer to the policies of those companies to better understand your rights and obligations with regard to your activity on those websites.

HOW WE USE AND SHARE INFORMATION WE COLLECT

We do not and will not sell your personal information. We share your information as required to meet legal and regulatory obligations. We share your personal information that you have provide to us in connection with applying for membership and/or financial products with us ("personally identifiable financial information") with affiliates and third parties in accordance with the practices set forth in the U.S. Consumer Privacy Notice.

- to comply with federal, state or local laws; civil, criminal or regulatory investigations; or other legal requirements;
